Basics of Instructional Design
Course Manual

STATECIVILSERVICE
COMPREHENSIVE PUBLIC TRAINING PROGRAM
Revised 06/27/2018
This one-day course is designed to help subject matter experts and other non-trainers develop training for their agencies. Participants will discuss and apply instructional design models, adult learning principles, multiple intelligence theory, and learning preferences to determine training needs and create effective and engaging training.

This course is part of the Master Trainer Certificate.

**LEARNING OBJECTIVES**

By the end of this workshop, attendees will be able to:

- Apply the concepts of instructional design
- Design and develop effective training materials
- Select activities and tools that will aid in the understanding of course topics
- Evaluate training for improvement and revisions
### ADDIE

The classic model of the training design process, which includes the steps:
- Analysis
- Design
- Development
- Implementation
- Evaluation

### AGILE LEARNING DESIGN

Any approach to content development that focuses on speed, flexibility, and collaboration

### SAM (Successive Approximation Model)

An agile content development model that emphasizes collaboration, efficiency, and repetition
**THEORIES/PRINCIPLES**

<table>
<thead>
<tr>
<th>ROBERT GAGNE’S CONDITIONS OF LEARNING</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gagne identified these nine instructional events. Applying these help to design training and select appropriate media and activities.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>BLOOM’S REVISED TAXONOMY</th>
</tr>
</thead>
<tbody>
<tr>
<td>In 2001, a group of researchers and theorists revised Bloom’s six major categories of Knowledge, Comprehension, Application, Analysis, Synthesis, and Evaluation to action verbs to make them more dynamic. It is most commonly used to assess learning on a variety of cognitive levels.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>KOLB’S EXPERIENTIAL LEARNING CYCLE</th>
</tr>
</thead>
<tbody>
<tr>
<td>A four stage cycle of the learning process identified by David Kolb in 1984.</td>
</tr>
</tbody>
</table>
### LEARNING MODELS AND CONCEPTS YOU NEED TO KNOW

### THEORIES/PRINCIPLES

<table>
<thead>
<tr>
<th>LEARNING STYLE INVENTORY</th>
</tr>
</thead>
<tbody>
<tr>
<td>The three styles of learning include visual, auditory, and kinesthetic (hands-on) learning.</td>
</tr>
</tbody>
</table>

Some basic preferences that can indicate learning styles include:

<table>
<thead>
<tr>
<th>NOTES</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>VISUAL</strong></td>
</tr>
<tr>
<td>When spelling</td>
</tr>
<tr>
<td>When speaking</td>
</tr>
<tr>
<td>When reading</td>
</tr>
<tr>
<td>When learning software</td>
</tr>
<tr>
<td>When trying to concentrate</td>
</tr>
</tbody>
</table>

### BLENDED LEARNING

Training initiatives that include using a variety of learning formats, including digital, web-based, job aids, assessments, and face-to-face training.
## Key Terms

<table>
<thead>
<tr>
<th>KEY TERMS</th>
<th>NOTES</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPETENCIES</td>
<td>Behaviors that demonstrate the knowledge, skills, and abilities as levels of performance in the workplace. (Formal definition: A competency is a set of defined behaviors that provide a structured guide enabling the identification, evaluation, and development of the behaviors in individual employees.)</td>
</tr>
<tr>
<td>COURSE</td>
<td>A planned series of learning experiences on a specific topic or group of tasks</td>
</tr>
<tr>
<td>E-LEARNING (Electronic Learning)</td>
<td>Term covering a wide set of applications and processes, such as web-based learning, computer-based learning, virtual classrooms, audio programs, videos, and more</td>
</tr>
<tr>
<td>ILT (Instructor-led Training)</td>
<td>Traditional classroom training with an instructor/facilitator and students</td>
</tr>
<tr>
<td>INFORMAL LEARNING</td>
<td>Learning that is not formally defined and takes place in locations ranging from the workplace to social media</td>
</tr>
<tr>
<td>KSAs (Knowledge, Skills, and Abilities)</td>
<td>Knowledge, skills, and abilities (See competencies)</td>
</tr>
<tr>
<td>M-LEARNING (Mobile Learning)</td>
<td>Learning that takes place on wireless devices such as smart phones and tablets</td>
</tr>
<tr>
<td>MODULE</td>
<td>A unit, especially one that can stand alone, to be learned independent of other units</td>
</tr>
<tr>
<td>OBJECTIVES</td>
<td>Training objectives state what will be accomplished as a result of the training.</td>
</tr>
<tr>
<td>SME (Subject Matter Expert)</td>
<td>An individual who is proficient in a specific topic area</td>
</tr>
<tr>
<td>UNIT</td>
<td>A major subtopic, task, or task cluster to be learned within a course</td>
</tr>
<tr>
<td>WBT (Web-based Training)</td>
<td>Delivery of educational content via a Web browser, internet, or intranet</td>
</tr>
</tbody>
</table>
## BASICS OF INSTRUCTIONAL DESIGN

Your task is to study your assigned steps of ADDIE below.

- Your group will discuss the notes on the page.
- You’ll decide why you feel this step is important to the instructional design process.
- And you’ll add anything else you might want to do during this step of instructional design.
- Then you’ll be prepared to share your information with us when we get to your step in the course today.

### ADDIE

<table>
<thead>
<tr>
<th>Step</th>
<th>Notes</th>
</tr>
</thead>
</table>
| **ANALYZE** | - Gather data  
- Analyze training needs  
- Identify learner’s existing knowledge and skills  
- Analyze skill gaps  
- Define learning objectives  
- Identify timeline and delivery options  
- Continually communicate with stakeholders and revise plans as needed |
| **DESIGN** | - Determine how training will be delivered  
- Identify and plan the topics  
- Decide on the order of topics  
- Select training activities to support learning  
- Select media to be used  
- Continually communicate with stakeholders and revise plans as needed |
| **DEVELOP** | - Develop the content  
- Create slide presentation, audiovisuals, and other graphics  
- Complete handouts and course materials  
- Build the learning activities  
- Ensure all elements support the objectives  
- Continually communicate with stakeholders and revise plans as needed |
| **IMPLEMENT** | - Create plan to roll out training  
- Train others who will be facilitating the courses  
- Finalize all course logistics (location, equipment, etc.)  
- Utilize checklists to ensure all preparations are complete  
- Communicate with potential learners  
- Register and confirm attendees  
- Present training  
- Continually communicate with stakeholders and revise plans as needed |
| **EVALUATE** | - Have learners complete evaluation  
- Review test results if applicable  
- Observe behaviors to measure results  
- Continually analyze results to determine course revisions  
- Continually communicate with stakeholders and revise plans as needed |
NEEDS ASSESSMENT

- What symptoms suggest that a change is needed?
- What is the intended result of this training?
- Why is this important?
- Who requested this training?

AUDIENCE

- Who is the intended audience for this training?
- What is the difference between what they do now and what they will be able to do after completing this training?
- What is their current knowledge level of the topic?

OBJECTIVES

Your group will use the information on page 9 to create three objectives for your class.

By the end of this training, participants will be able to...

(Action Verb + Activity)

- 
- 
- 
-
What do you want attendees to be able to do upon completion of this course? How will you be able to measure this?

Think about these questions:

- What are the most important concepts or skills that trainees need to understand or be able to do by the end of the class?
- Why are these concepts and skills important?
- How will you know that they have understood these correctly?

### Characteristics of Well-Written Objectives

- **PERFORMANCE**: States what the learner will be able to do.
- **CONDITIONS**: Sometimes performance alone is not enough to explain the desired objective. In these cases, objectives will include the conditions under which the performance is expected to occur.
- **CRITERIA**: Using SMART concepts (Specific, Measurable, Achievable, Relevant, Time-bound) can help determine the level of performance that is considered acceptable.

### ACTION VERBS FOR OBJECTIVES

<table>
<thead>
<tr>
<th>REMEMBER</th>
<th>UNDERSTAND</th>
<th>APPLY</th>
<th>ANALYZE</th>
<th>EVALUATE</th>
<th>CREATE</th>
</tr>
</thead>
<tbody>
<tr>
<td>cite</td>
<td>describe</td>
<td>apply</td>
<td>analyze</td>
<td>assemble</td>
<td>assess</td>
</tr>
<tr>
<td>define</td>
<td>discuss</td>
<td>demonstrate</td>
<td>calculate</td>
<td>build</td>
<td>check</td>
</tr>
<tr>
<td>label</td>
<td>explain</td>
<td>employ</td>
<td>categorize</td>
<td>compose</td>
<td>choose</td>
</tr>
<tr>
<td>list</td>
<td>identify</td>
<td>interpret</td>
<td>diagnose</td>
<td>design</td>
<td>compare</td>
</tr>
<tr>
<td>name</td>
<td>locate</td>
<td>operate</td>
<td>distinguish</td>

<td>schedule</td>
<td>solve</td>
<td>plan</td>
<td>review</td>
</tr>
<tr>
<td>tell</td>
<td>tell</td>
<td>use</td>
<td>test</td>
<td>prepare</td>
<td>select</td>
</tr>
</tbody>
</table>

**DELIVERY METHODS**
Select which formats will best support the information being shared.

- Instructor-led
- Web-based
- Computer-based
- Documentation/Job Aids
- Other:

**TOPICS TO BE COVERED**
Determine the main topics that will support the objectives.

**INTERACTIVITY**
Select methods to practice and assess understanding of information for each topic listed in the content outline.

- Discussion
- Demonstrations
- Learning Activities
- Observation
- Feedback
- Tests
- Assessments
Sample Organizational Methods for Course Content:

- Tasks
- Topics
- Problem and solution
- Step by step
- Simple to complex
- Overview to detail
- Specific to general
- Known to unknown
- Present to future

Which organizational methods will you use for your course?

Create a draft of that order below:

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

### RESEARCH

<table>
<thead>
<tr>
<th>METHOD</th>
<th>DESCRIPTION</th>
<th>Questions</th>
</tr>
</thead>
<tbody>
<tr>
<td>INTERVIEW</td>
<td>Discussion with the person who requested the class can help to find information that needs to be included in the course content.</td>
<td>- When would this method of research be good to use?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Would it be good to define a process or procedure?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Would it help gain buy-in from potential attendees?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- What could be a drawback in using this form of research?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Would this work for your case study?</td>
</tr>
<tr>
<td>SME SURVEYS</td>
<td>Surveys or questionnaires of Subject Matter Experts (SMEs) can be used as a method to identify best practices and detailed information about the topic and processes.</td>
<td>-</td>
</tr>
<tr>
<td>DISCUSSION</td>
<td>Casual discussions with those involved in the topic can produce more candid information than a formal survey.</td>
<td>-</td>
</tr>
<tr>
<td>FOCUS GROUP</td>
<td>Formalized discussions with those involved in the topic allows interaction between viewpoints and can enhance buy-in for the course.</td>
<td>-</td>
</tr>
<tr>
<td>DOCUMENTATION</td>
<td>Review of materials, manuals, and job aids can be useful in determining what information is currently available and what will have to be researched and developed.</td>
<td>-</td>
</tr>
<tr>
<td>OBSERVATION</td>
<td>Observation of the current processes may be structured by having employees perform specific tasks or it can be unstructured by observing without influencing the employee’s actions.</td>
<td>-</td>
</tr>
<tr>
<td>OTHER</td>
<td>Traditional research methods, such as online investigation and publications, can help determine what others have discovered about the topic.</td>
<td>-</td>
</tr>
</tbody>
</table>
### LEARNING ACTIVITIES

<table>
<thead>
<tr>
<th>If you’re dealing with hands-on or kinesthetic learners, these activities can help learning occur:</th>
<th>If you’re dealing with auditory learners, these activities can help learning occur:</th>
<th>If you’re dealing with visual learners, these activities can help learning occur:</th>
</tr>
</thead>

### SAMPLE LEARNING ACTIVITIES

<table>
<thead>
<tr>
<th>Sample Learning Activities</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Case studies</td>
<td>Groups read a real job-related case study and apply what they just learned to determine the course of action.</td>
</tr>
<tr>
<td>Discussions</td>
<td>Small group discussions can be a good way for more reserved attendees to feel comfortable discussing the topic. It also also experienced attendees to share knowledge with others.</td>
</tr>
<tr>
<td>Icebreakers and Energizers</td>
<td>These activities are designed to either allow the group to get acquainted and become more comfortable with each other or to help raise the energy level of a group. There are numerous collections online and in publications.</td>
</tr>
<tr>
<td>SAMPLE LEARNING ACTIVITIES</td>
<td>NOTES</td>
</tr>
<tr>
<td>----------------------------</td>
<td>-------</td>
</tr>
<tr>
<td>Role Plays</td>
<td>Participants act out a situation that relates to the topic or uses information that has been learned in the session.</td>
</tr>
<tr>
<td>Question and Answer Sessions</td>
<td>Informal question and answer sessions can be effective when the session is updating skills rather than teaching new skills.</td>
</tr>
<tr>
<td>Quizzes</td>
<td>Oral or written quizzes can be used as reviews for sections of the course and to assess understanding of the material that has been presented.</td>
</tr>
<tr>
<td>Games</td>
<td>Various games can be used to introduce topics or to reinforce or review training materials.</td>
</tr>
<tr>
<td>Teach backs</td>
<td>Attendees teach something they have learned in the session to other attendees.</td>
</tr>
</tbody>
</table>
SCRIPT
Create instructional guides that detail the timing, materials, and activities that will be used in the course

- May include specific scripting for others who will be teaching the class
- May also include images of slides to help facilitator ensure he/she is at proper place in program
- May include additional information and resources for facilitator’s understanding of the topic

HANDOUTS
Create handouts with information, spaces for writing, and tools to support activities and transfer of learning into workplace

- Manuals that outline the session information to serve as a resource and a place to take notes
- Job aids can include checklists, documentation, and review pages
- Case studies allow participants to practice the workshop information in a real world situation
- Assessments to self-assess current skills or skill gaps
- Evaluations so that attendees can determine the success of their learning experience

SLIDES
Create slide presentation

- Used to present information visually
- Serves as an agenda or outline of the material to be covered
- Can also be used as handouts with places for notes
- Printed copies of slides can be used in case of equipment failure
### Course Checklist

- **Create and send training announcement. Include:**
  - Title
  - Course Description
  - Location
  - Date and time
  - Registration information
  - Presenter/Contact information
  - Location details (Parking, room, directions, etc.)

- **Copy materials.**
  - Training manual
  - Handouts
  - Name tags
  - Sign-in sheets
  - Evaluation forms
  - Tests
  - Case studies and other activity materials
  - Signs

- **Determine and reserve equipment.**
  - Computer with necessary software
  - Remote
  - Projector
  - All related cords and connectors
  - Microphones
  - Flip charts and stand
  - Markers
  - Materials for activities
  - Training supplies (pens, pencils, paper)
  - Refreshments (optional)

- **Arrive early, allowing preparation time.**
- **Post signs.**
- **Arrange room setup to encourage interaction.**
- **Connect audiovisual equipment and test.**
- **Check visibility from all seats and angles.**
- **Locate temperature and lighting controls.**
- **Locate emergency exits and equipment.**
- **Organize registration.**
- **Place copied materials as desired.**
  - at seats
  - registration table,
  - facilitator table (for later distribution)
- **Greet attendees as they arrive.**
- **Start on time.**
- **Conduct training, adjusting based on participant needs.**
- **Schedule breaks for every 60-90 minutes of training.**
- **Collect participant evaluation forms.**
- **Reset room to original condition.**
- **Compile evaluation results and share.**
- **Consider adjustments based on evaluation results.**
- **Send follow up emails and communications to those involved in the training project.**
**THE BASICS:**
- Create plan for review and revision of materials as needed
- Communicate evaluation results to stakeholders
- Create system to ensure materials are updated and maintained in one location
- Meet with stakeholders to determine what worked and what can be adjusted in future courses
- Notes:

### EVALUATION FORM

<table>
<thead>
<tr>
<th>Evaluation Item</th>
