Q: Who is required to complete the new Cybersecurity class?

A: That is up to your appointing authority. ACT 155 requires state and local agencies to identify employees or elected officials who have access to the agency's information technology assets. Anyone with such access is required to complete the training, including contractors who may have access to state information technology (IT) systems. New employees shall complete the training within 30 days of initial service or employment with the agency.
