MANAGEMENT STATEMENT OF DOCUMENTATION, MONITORING AND MAINTENANCE PROCESSES

State Civil Service (SCS) constantly seeks to evaluate and update internal processes to maximize our ability to be proactively and strategically responsive to the needs of our customers. Built upon the principles as outlined in Article X of the State’s Constitution, our foundation begins with merit and continues through supporting state agencies to achieve organizational excellence through classified workforce. We concentrate on aligning our efforts with the corresponding missions, visions and goals of each of our client agencies. Through collaboration with Agency Heads and state government’s human resources community, we strive to provide innovative merit-based human resources programs that enable the state to attract, develop and retain a highly skilled and diverse workforce.

Through strict adherence to our core agency values, SCS maintains commitment to transparent, accountable and effective government by providing information regarding the agency and its services to the public via its website and through public records request.

The preparation for this strategic plan acknowledges the fact that SCS serves a diverse group of state agencies and stakeholders with complex human resources needs. In order to identify priority factors to internal and external stakeholders, environmental scans were conducted and meetings of the SCS internal leadership team occurred. Review of the previous strategic plan, performance indicators, and current and future initiatives for the department were discussed. The goals, objectives and performance indicators presented in this plan reflect what will be achieved during this plan period.

In March of 2019, SCS implemented the PODS model – Proactively Optimizing and Delivering Strategic-solutions. This model exists to better serve the needs of each state agency. PODS are teams of state civil service professionals that integrate all workforce functions (e.g. classification, pay, staffing, compensation, employee relations, etc.) into a combined single unit to address workforce needs. Each POD is headed by an Agency Relationship Manager (ARM), whose mission is to build and maintain relationships with our key stakeholders: human resources directors and agency leaders. ARMs administer tailored consultation to state agencies through the supervision of PODS. This strategic plan includes revisions to performance indicators, goals and objectives that reflect this new organizational structure.

SCS will ensure that all documents used in the development of the strategic plan as well as the data used for the completion of quarterly performance reports through the Louisiana Performance Accountability System (LaPAS) will be maintained according to records retention laws applicable to this agency.
